Introduction to Bishopsgate Contracting Services

Luke Shannon-Little, Managing Director of Bishopsgate Contracting Services, explains what we can offer you and how we deliver a market leading contractor services.

Bishopsgate Contracting Services provides subcontracted construction services across the UK.

We engage contractors on a CIS payment model ensuring all subcontractors are compliantly paid under the rules and regulations of HMRC, in conjunction with the CIS scheme.

Our process removes the legislative burden and risks arising from engaging directly with self-employed subcontractors, ensuring they are engaged correctly with the relevant CIS payments being made to HMRC.

Our experienced team guides contractors through their options in an honest and transparent manner, helping them to understand their responsibilities when operating as a sole trader. Bishopsgate have experience working with construction companies across the UK.

Managing Director
Bishopsgate Contracting Services

“
So, what do Bishopsgate do and what can they do for my business?”

Bishopsgate Contracting Services provides subcontracted construction services across the UK, with compliance, health and safety and customer service at the heart of what we do.

By using Bishopsgate for your construction project, you won't need to engage subcontractors directly: we will complete the project and engage subcontractors as necessary.

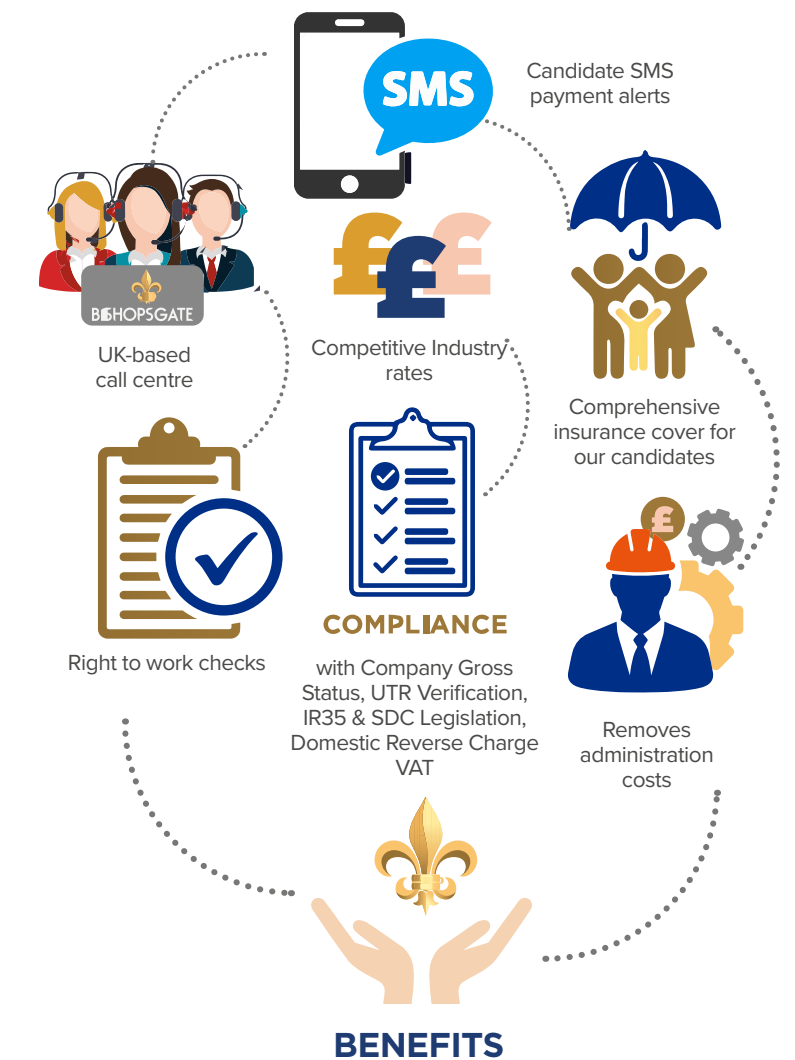

As we are engaging the subcontractors, you don't need to worry about HMRC employment status challenges or employment tribunal claims. Plus, you will just need to make one payment to us, greatly reducing your admin burden.

Bishopsgate Contracting Services is regularly audited by its specialist compliance advisors, HQ35, and has attained the highest level of compliance. HQ35 is delighted to endorse Bishopsgate Contracting Services against employment taxes levied should HMRC successfully challenge the employment status of the subcontractors.

This endorsement means all our clients are entirely insulated from any tax liability that comes with engaging a self-employed workforce.

Our experienced team guide contractors through their options in an honest and transparent manner, helping them to understand how we can meet their contracting needs.

Bishopsgate have experience of working with companies across multiple UK industries, with a primary focus to supply all our clients with a fully compliant, best practice service.

“
So, CIS
what’s this all about?”

The Construction Industry Scheme (CIS) is a tax law that HMRC set up to pay subcontractors in the construction industry.

Tax is deducted at either a higher (30%), net (20%) or gross level depending on the status of the subcontractor’s UTR number.

CIS tax deduction rates are as follows:

‘Net’ deduction (20%)

A flat rate of 20% is the standard deduction for subcontractors who have registered their UTR number under the CIS.

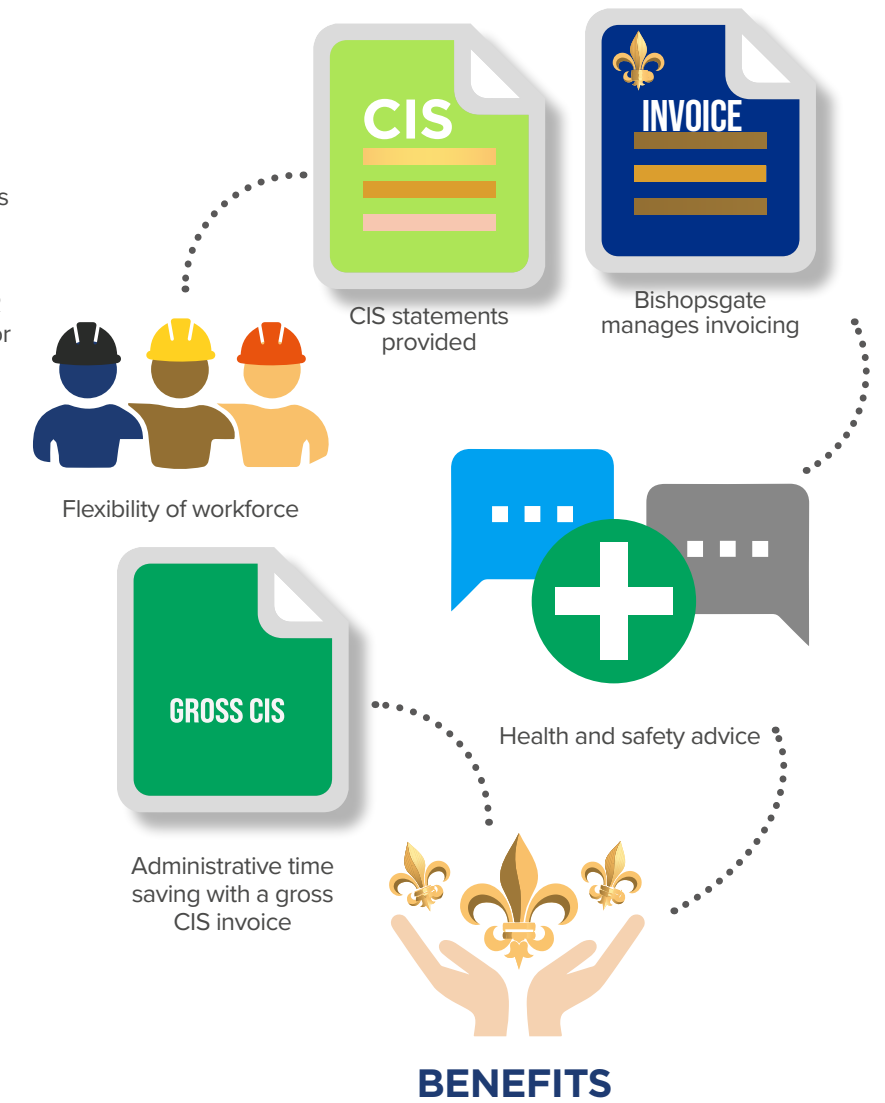

Higher deduction (30%)

Deductions at the higher rate of 30% may be taken if the UTR number you’ve provided to the contractor is either incorrect or has not been registered.

If you are having problems with your UTR number being verified by contractors, you should contact the CIS office for assistance.

Gross payment (0%)

If you have been granted gross payment status by HMRC there will be no deductions made on your payment.

“
 So, Bishopsgate insurance ...
 what's covered?”

Bishopsgate Contracting Services have an insurance policy to assist with security when determining the self-employed status of a contractor.

This policy covers any potential NIC losses, interest and penalties up to £2million with an additional £50,000 of legal expenses insurance. This means that any workers paid through Bishopsgate Contracting Services will now be covered under this policy. This ring-fences the claim to Bishopsgate Contracting Services and gives you the assurance that you are protected.

To include our standard insurance policy coverage:

PROFESSIONAL INDEMNITY COVER
£5m

PUBLIC LIABILITY COVER
£10m

EMPLOYEE LIABILITY COVER
£10m
